

# PDC FlightCharter

Managing Business Jets, Offer - Contracts - Execution

# 1st-class suite of applications for scheduling and managing flights, documents, crew, handlers, etc.

PDC FlightCharter is the most complete and innovative software for procurement, contract creation, document management and flight planning in General Aviation. The solution is made by aviation people who know the complexity and demands of your operation.

PDC FlightCharter guides you through the entire work flow from a potential customer makes contact, through actual operation to post flight data recording and reporting - ensuring efficiency and quality in your business.

The solution is a first-class suite of applications for scheduling and managing of flights, documents, crew, handlers, etc. This provides sales personnel, flight and crew planners with a unique tool for handling different kinds of contracts, negotiated price, customer information and other related information.

*We have chosen the PDC FlightCharter solution to support our business processes. Data are only created once and available when needed. It has also been important for us, to find a software supplier with leading aviation software competence, so we can continue our strive to be professional and competitive in the future.*

Henning Tæstesen, Air Alsie

## Maximum Utilization of the Fleet

PDC FlightOps is the module used to plan and control the fleet utilization. It optimizes the operations and controls the business by providing timely alerts of any possible disruption and includes the tools needed to avoid or minimize delays.

PDC Crew streamlines the entire process of managing the cockpit and cabin crew assignment - ensuring that the right crew with the right qualifications is in the right place at the right time.

Both PDC FlightOps and PDC Crew assure that the schedules do not conflict with various kinds of constraints and that it complies with laws and regulations.

Be responsive - Get an overview - Make smarter decisions - Define more accurate flights and eliminate non-value added activities!

## All-in-One System Increases Profit Margin

PDC FlightCharter is a fully integrated solution where all modules are working on the same data - from presales quotations to after flight calculations.

These high quality data provide big time savings and high certainty against human errors, while eliminating duplicated work and manual controls when there are adjustments in assignments or flights.

When changes to a planned flight occur one has to both make preparations for the changes and cancel related preparations already made. For this, PDC FlightCharter offers an automatically updated checklist providing you with an overview of what needs your attention from the current flight plan status.

## Key Benefits

01

Coherent data flow saves time and redundant manual operations

02

Assurance that the plans are implementable

03

Fast and easy to set up flights, offers and quotations

04

Seamless integration to PDC EFB

### Smooth Communication Ensures Quality in Deliveries

Once a handling agent or other 3rd parties have been registered in the PDC FlightCharter system there is no need to store e-mail addresses or phone numbers anywhere else. They are readily available and can be used by the click of a button. Once implemented and properly integrated with existing systems PDC FlightCharter will allow you to call, text, e-mail, or fax any party registered.

### Easy Document Management Minimizes Errors

Planning a flight is all about having the right documents, and making sure that the proper recipients will receive them in due time. PDC FlightCharter generates the proper documents for you, clients, authorities, airports, and others. As with offers, the documents can be sent directly from within PDC FlightCharter and copies of sent documents are available at any time.

### EFB Integration for Efficient Communication / Documentation

The PDC EFB is designed to communicate to, not just the pilots, but the entire company behind them. Valuable operational, financial, technical and passenger related information can be shared in an instant to and from the cockpit.

### Cost Efficient Acquisition

PDC FlightCharter is the optimal solution for those who operate in a vibrant environment but also for those with the financial responsibility. We deliver a comprehensive solution that is cost efficient to acquire and operate. PDC FlightCharter is fast and easy to implement and with a rich set of flexible tools many modifications can be made by yourselves.

As regards the economic aspects PDC FlightCharter offers numerous reports and statements which give financial overview of your business.
